## ABOUT ME

- Bachelor of Technology in Computer Science, skilled in front-end web development using modern visual website builders, HTML, and CSS. Experienced in graphic design and digital content creation through advanced online design platforms. Currently advancing expertise in WordPress to create sophisticated and user-friendly websites. Quick learner with strong adaptability and a dedicated work ethic committed to delivering high-quality results.

## WORK EXPERIENCE

### WEB DEVELOPER INTERN AT “JDSECURICORP”

Jul 2023-Sept 2023

- Completed internship at JD Securicorp, a leading security agency providing trained security guards, executive protection, and specialized services like hospital, industrial, and female security.
- Responsible for designing and customizing the website's front-end using a HTML , CSS, and modern visual website platform, focusing on a seamless and responsive user experience across devices. Integrated interactive contact forms and ensured the setup of proper email communication channels for effective client interaction

## EDUCATION

### Bachelor of Technology in Computer Science And Engineering

2021-2025

- Aravali Institute Of Technical Studied (RTU), Udaipur (Rajasthan)
- CGPA: 7.45

## SKILLS

### Technical Skills

- Artificial Intelligence (Basic knowledge and applications)
- Web Development: HTML, CSS
- Content Management Systems: WordPress
- Graphic Design: Canva and Figma

### Professional Skills

- Leadership and Team Management
- Served as Vice President of the Technical Club in college, where I led my team to successfully organize quizzes and technical events, enhancing participation and learning among students.

## PROJECT

### TRISPARK (<https://trispark.vercel.app/>)

- Developed TRISPARK, an integrated online platform featuring a bookstore for downloading PDF books, an educational section with code editor and video lectures, and a Genius AI powered by Gemini API.
- Developed the front-end interface for the bookstore and educational sections of TRISPARK, ensuring a user-friendly experience. Built and managed the bookstore's back-end database using MongoDB Atlas for secure and scalable data storage.

## AWARDS

- Awarded for outstanding academic performance by securing the 1<sup>st</sup> rank in the 8<sup>th</sup> semester at AITS
